

# FAMILY ACCESS OPTIONS

The menu on the left-hand side has clickable areas that parents can view.

Click My Account to change settings.

The Calendar shows assignments and upcoming events.

Click the down arrow to set which messages you will view on your Wall.

The Wall has messages sent from teachers, admins or coaches.

Once you click My Account, the screen below will open. Here you can update your personal information, change your password or login and set your email notifications. Parents have options to receive Grading Emails, Progress Report Emails and Food Service Balance Emails. At the bottom, you also have the option to Hide Students. Do NOT check these unless you do not want one of your student's information to show in Family Access.
